

Tips For Making Presentations

Discussion

I have had a class in two months.

I didn't have any classes in August in July.

At that time my kind was on summer vacation I needed to take care of them.

How many kids do you have?

I have two kids, my daughter is 8 and my son is 7 years old.

You were so busy with them?

I needed to go traveling with them.

You went traveling during Covid-19 epidemic?

We went just in China.

Why did you needed to do so?

Since they were two years old, we went traveling together every year.

Have you ever given a presentation?

I have given a presentation to the Ministry of environment.

What kind of presentation did you give?

At that my company needed to get a air pollution permit.

I needed to show how the batteries are made and how the materials are disposed.

Government is usually divided into minstries.

Ministry of Educationa

Ministry of Justice

Ministry of Finance

Ministry of Energy...

Do you like to make presentations?

Yes, I do.

Why?

It can make people better understand your job.

Is giving a presentation stressful?

Yes, it is.

When you prepare the presentation and being to make it, you must be stressed.

When you begin to present the topic, you are not sure if other people can understand what you mean or not.

In the end you can see if they agree with your presentation or not.

I din't assume making a presentation is difficult, I thought delivering presentation is more stressful.

You must express yourself in a professional(adj.) way(noun).

You must express yourself professionally(adv.).

I dedicate one hour a week for doing exercises.

It would be good enough if you dedicate one hour three times a week.

Grammar

Past Tense

When you talk about someting that heppened before this moment, you must use past tense.

Modal Verb “should”

Should is used to express that something is useful, a good idea.

I should learn more language but if I don't I won't be punished, there isn't going to be any negative consequences.

Modal Verb “need”

What does it mean?

I need to work, otherwise I won't get my salary.

Need is used to express necessity. It tells us that something must be done otherwise something bad will happen.
