Why did you choose this topic?
I didn't choose the topic, I just skipped that step.

Since you were able too book it, it would make sense to spend a minute choose something interesting for you.

Express yourself in sentences.

I bought a lot of clothes online.

These days clothes became really cheap compared to the past, so people are just buying too much.

You can buy a t-shirt for $5. It's almost not worth washing your clothes.
How do you stay safe when using the Internet?
People should only vist reliable websites. They shouldn't put too much personal information on the Internet. They should be careful with unfamiliar links.

It's maybe useful to use VPN(virtual private network), or antivirus software.

Sometimes reliable websites a copied by hackers, and you might think that you are on reliable website, but it's just a copy, and hackers are trying to steal your information.

If you receive an email from a well-known company, pay attention to domain name, from which email was sent.

Check your url, when you visit a website.
