Project Management

Discussion

You have a tendency to add -s to words. You really shouldn't do that unless you want to make plural form of a noun.

Project menagments(don't say -s at the end)
Project menagment(correct)

How would you define management?
Management is a control in order to achieve success.

Project menagment is a process of controling a project in order to achieve success.

Are you interested in management?
It's just so-so.

Why?

Managers are usually the highest paid people in the company?

I watched the movie with my friend yesterday, by the way, did you water the plants?
