Getting a promotion

Discussion

I was very busy recently.

What kind of exam do you have to take?
I want to get master's degree.

I need to pass this exam and I can get the degree.

Why do you need master's degree?
In the beginning I wanted to get the degree because I wanted to get new knowledge.

I am starting my first semester this October. I have applied for another bachelor's degree in computer science.

I only need to go to the university when I have an exam, all other classes, and communication with professor is online.

I don't like online courses.
I could choose online or traditional courses. I chose traditional courses.

It will take four years to get this degree.
I have already joined my universities online group.

How would you describe your job? It's a useful job for each employee, I am an HR and a business partner.

Do you work overtime?
I don't work overtime.

Do you have to attend a lot of meeting for your job?
I don't feel very efficient because of these meetings.

I want to deal directly with my responsibilities.

Are these meetings included in your working hours?
Yes, they are.

Do you have to do a lot of paperwork?
No, I don't.
